CAPABILITY STATEMENT

Always a fresh perspective

UES MARINE

A LEGACY BUILT BY FAMILY

Formed in 2002 and born from over 125 years of engineered solutions, UES Marine delivers exceptional solutions and experiences to vessel owners and passengers globally.

Focusing on full line solutions allows for completely customised and individualised project design, manufacture and installation.

As a strategic supply partner to some of the world's most iconic maritime operations such as WETA Water Emergency Transportation Authority San Francisco, New York's Staten Island Ferry and Brittany Ferries, UES Marine brings a fresh perspective with world class experience.

OPTIMISED OUTCOMES

The portfolio of engineered maritime solutions are built on the values of quality, ergonomony and safety, to create optimised outcomes for all stakeholders in the maritime sector. Respectful of our tradition but focusing on the future, UES marine hold a fresh perspective, UES Marine hold a fresh perspective on the passenger experience, which informs our designs, fabric selections and new product development.

UES
marine

ENHANCING THE PASSENGER EXPERIENCE

MODULAR FURNITURE

Optimised for scalability and passenger comfort with many seats available in selected widths and heights, UES Marine ergonomically designed options allow for the ideal layout for your vessel.

BESPOKE UPHOLSTERY

Custom fabric, upholstery and sublimated branding on selected benches reflect opulent style and design to create a memorable passenger experience.

OPTIMISED SEATING

UES Marine inhouse engineering team deliver technical design and sales support to optimise space availability and seating capacity, without compromising safety and comfort.

INSTALLATION AND MAINTENANCE

The UES Marine Installation and Service Team deliver and fit UES furniture solutions, ensuring vessels are delivered on time and to class leading standards. All furniture features fully replaceable componentry and hardware, delivering low cost ownership, and includes fully removable and replaceable seat covers for easy cleaning and maintenance.

EUROPEAN MANUFACTURE

Having production facilities close to our customers means short lead times, fast turnaround and more support. With an already established European sales and support capability, in 2023 UES Marine will add to our European production capability to more rapidly deliver customer solutions.

BUSINESS SEATING

LUXFORM EXPLORER

- Luxury passenger seat
- 4 standard widths: 480mm, 500mm, 520mm, 570mm
- Custom embossed logo available on upholstery
- Full range of accessories
- Electronic actuated recline and footrest – Degrees of recline: 70°
- Ergonomic design

LUXFORM JOURNEY

- Premium passenger seat with adjustable recline
- 4 standard widths: 480mm, 500mm, 520mm, 570mm
- Custom logo available on upholstery
- Gas assisted footrest available
- Personal reading light
- Full range of accessories
- Ergonomic design
- Destruction tested and certified

LUXFORM YOYAGER

- Luxury passenger seat
- 4 standard widths: 480mm, 500mm, 520mm, 570mm
- Custom embossed logo available on upholstery
- Full range of accessories
- Electronic actuated recline and footrest
- Degrees of recline: 70°
- Ergonomic design

LUXFORM HAVEN

- Privacy Surround
- Completely Customisable
- Lightweight Modular Construction
- Suits All LUXForm Collection
- Wide Range of Finish Options
- Compatible with All Recline Angles

NEW

LIGHTWEIGHT TUBULAR LUXFORM

Tubular Luxform variant available across the range at 20% weight saving

LUXFORM TRAVEL

- Premium passenger seat
- Full shoulder support
- Cup holder armrest
- Custom logo available on upholstery
- Ergonomic design
- Destruction tested and certified

LUXFORM TRAVEL

LIGHT WEIGHT ELASTOMERIC TECHNOLOGY COMMUTER SEATING

SEAFORCE

- Static passenger seat
- Four standard seat widths
- Three standard back heights
- Interior and exterior options
- Custom designs available
- Full range of accessories
- Light weight
- Low fire load
- Low Profile Ergonomic design
- Destruction tested and certified
- Foamless technology

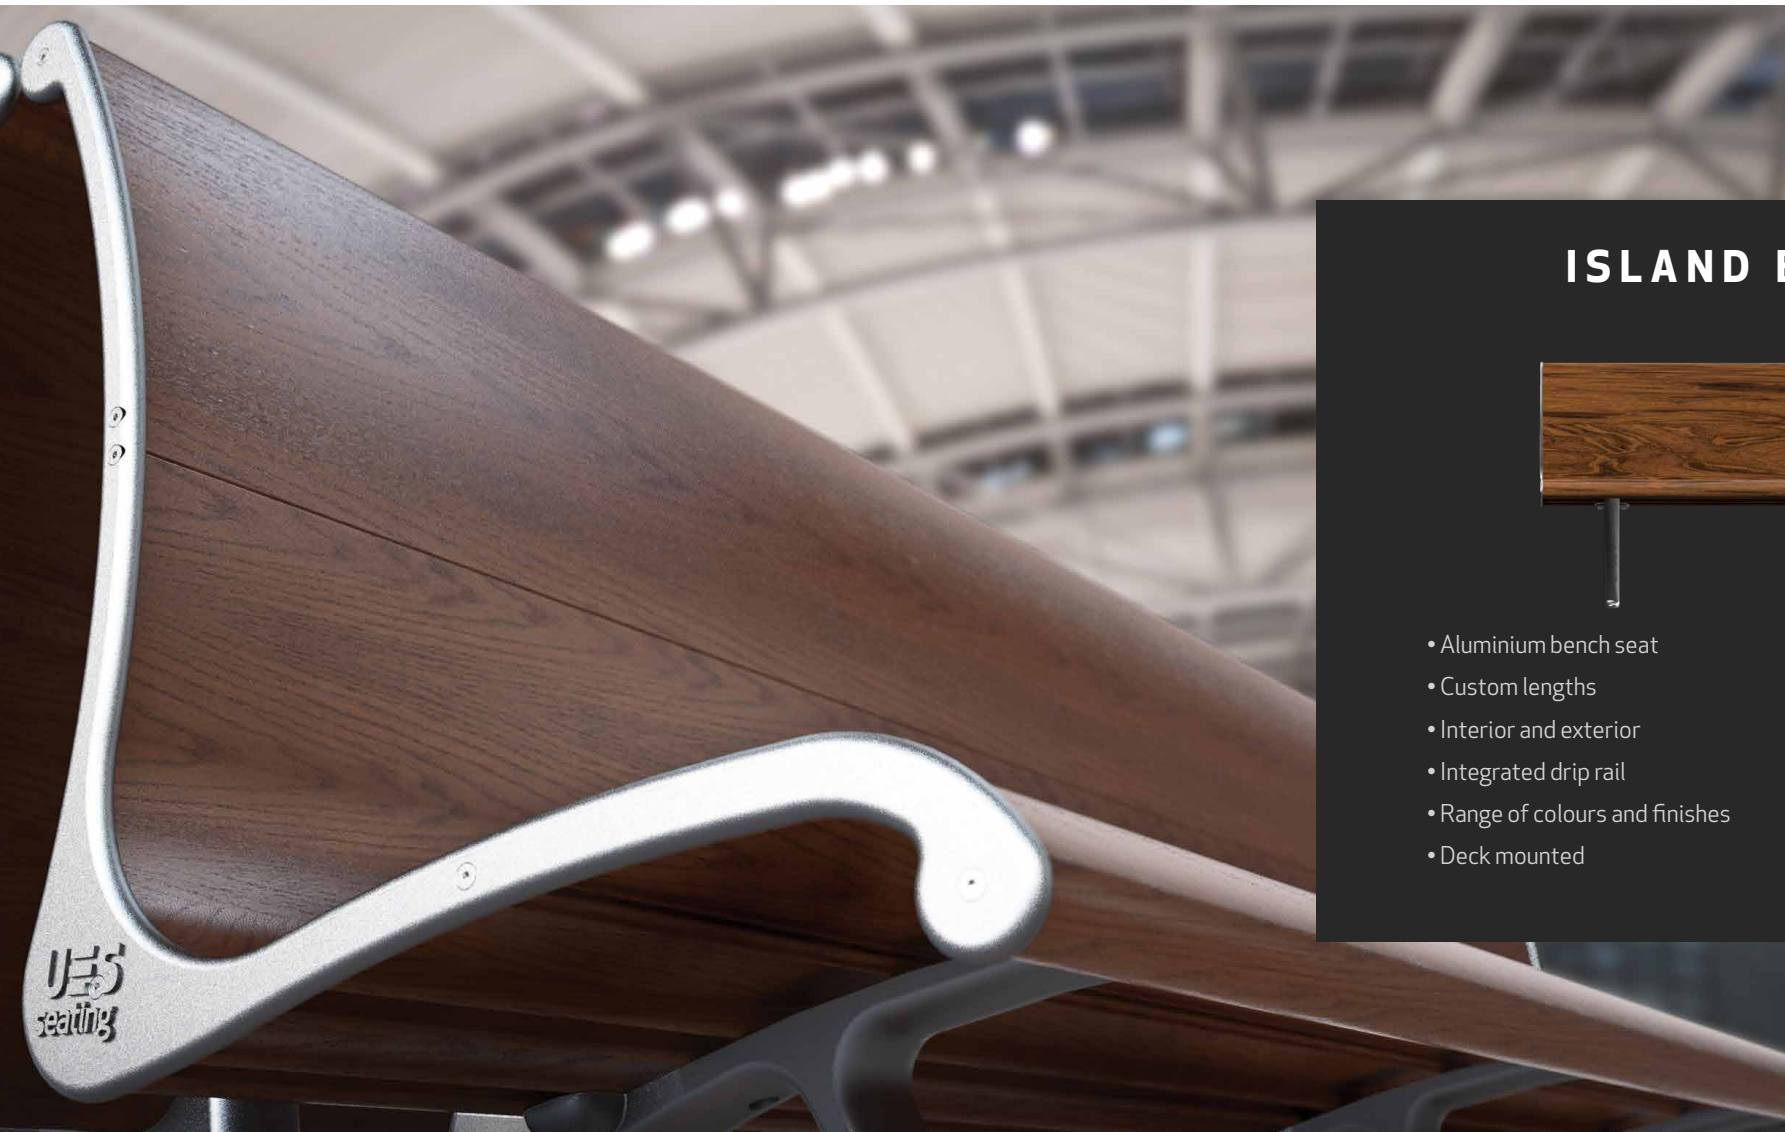

G-FORCE

- High back passenger seat
- Integrated head rest
- Recline option
- Four standard widths
- Custom designs available
- Full range of accessories
- Light weight
- Ergonomic design

OPEN DECK SEATING

ISLAND BENCH

- Aluminium bench seat
- Custom lengths
- Interior and exterior
- Integrated drip rail
- Range of colours and finishes
- Deck mounted
- Ergonomic design
- Low Fire Load
- Compatible with PFD Bin accessory
- Good Design selection award (2016)- Furniture and Lighting

NEWPORT BENCH

- Aluminium
- Durable and easily maintained
- Lightweight
- Deck or bulkhead mounting options
- Anodized and powder coat finishes available
- Extended structural warranty available
- Cupholder optional

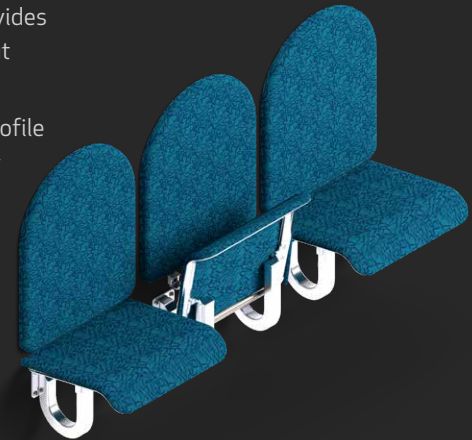

NEWPORT

FOLD-UP SEATING

BULKHEAD MOUNTED

- Inconspicuous bulhead mount provides additional seating capacity without compromising floor/deck space
- Customisable pan and backrest profile allowing style and shape flexibility
- Full pan fold up design promotes increased passenger access (increasing embark and disembarking)
- Increased floor or deck cleaning access when pan is stored

BEAM MOUNTED

- Based on the class leading Sea Force backrest and pan design
- Full pan fold up design promotes increased passenger access, increasing speed to embark and disembark
- Increased floor or deck cleaning access when pan is stored
- Can be specified in any mix of fold up and static seating options on a single beam

FOLD-UP SEATING

MARINE FURNITURE

LOW BACK BAR STOOL

- Customisable height from deck
- 360° swivel and return
- Optional footrest
- Ergonomic design
- Two standard widths
- Low unit weight
- Minimal fire load

BACKLESS BAR STOOL

ARM REST ACCESSORIES

Beam mounted armrest with cupholder

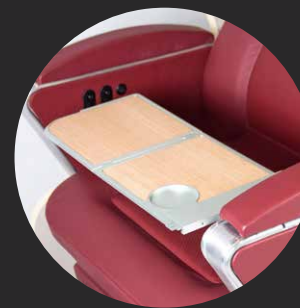

Mealtray armrest

Fold up armrest

Beam mounted armrest with infill pattern and recline button

LUXForm armrest with bi-fold meal tray

Weight saving beam mounted LUXForm armrest

MARINE TABLES

- Table top options to meet weight and fire load targets
- Range of colours and finishes
- Aluminium honeycomb top with decorative laminate face
- Wide range of laminate colours
- Finished with aluminium edging
- Custom sizes and shapes
- Aluminium pedestal mounting system
- Optional leg mounted module fitted with power and USB ports

Tall marine table with charging pad

Pedestal marine table

Standard marine table

Heavy duty marine table

Marine table with in-laid charging

CAPTAIN SEATING

G-FORCE HELM

- High back with integrated head rest
- Lightweight modular design and construction
- Ergonomic design for passenger comfort and support
- Direct deck pedestal mounted
- Forward and aft slide, 360 degree rotation and adjustable height
- Standard Seat width: 550mm (21.7in)
- Custom widths and heights available
- Foamless upholstery technology
- Low fire load

LUXHELM

- Fore & Aft Slide
- 360° Swivel
- Height Adjustable
- Deck Slide Available
- Control Arm

PROJECTS

UES Marine furniture solutions can be found on vessels globally, supporting the 4.27 billion passengers that choose to travel on the water each year. Building from our modular furniture options, clients have chosen to customise elements of their interior and exterior vessel fitouts with UES Marine. Customised fabric options, bespoke furniture solutions, and post installation service plans, all form part of our individualised approach to deliver an outcome our clients are delighted by.

Featured on some of the world's most iconic vessels, UES Marine continues to support the marine industry with lightweight, ergonomic and engineered marine furniture solutions.

CASE STUDY – BRITTANY FERRIES

UES Marine LUXForm Journey passenger seats, with customised adjoining cabinetry with cupholders, form part of the Brittany Ferries experience, which services 13,841 passengers annually. The luxury reclining seats were specified by naval architecture firm Figura and are fitted with gas strut operation for backrest recline and footrest elevation.

The LUXForm Journey is featured on three of the nine high speed ferries that comprise the Brittany Ferries fleet, the MV Salamanca, MV Santona and MV Galicia.

CASE STUDY - GOLDEN GATE FERRY

UES Marine was specified as the preferred furniture supplier of the Golden Gate Ferry. The build required engagement by the UES Marine engineering team to develop a custom fabric and configuration to address the camber, taking into account the extreme bend on the deck. The result was a bespoke approach to the leg length of each individual seat aboard the outer decks of the vessel, with each custom cut, to provide passengers with a comfortable and safe experience in every seat.

The Golden Gate Ferry transports 5,794 passengers every day on G-Force and Newport bench seating.

CASE STUDY - STATEN ISLAND FERRY

UES Marine recreated the iconic Staten Island Ferry passenger experience through the design and installation of custom made Island Ferry Bench solution. With custom panel sublimation and the classic curves of the original ferry seating, NYCDOT engaged the ridership to select the seating they wanted to see aboard their vessels. Consequently, the Island Bench was selected by the ridership for inclusion on the Ollis Class, commissioned in 2020.

The Island Bench is featured on 3 vessels in the Ollis Class, supporting 9,000 commuters every day.

CASE STUDY - WETA DORADO

We worked closely with the WETA appointed design team to create a range of "Custom WETA standard fabrics" used exclusively by WETA across their fleets.

Dorado was the first new build to feature the custom fabrics, with others also in service on vessel refits or refurbishments.

WORKING COLLABORATIVELY

UES Marine offer personalised support and advice on every build. Inhouse engineering and design, manufacturing, installation and service teams work collaboratively to ensure projects are delivered on time and within scope.

Chad Formhals
DIRECTOR, GLOBAL INSTALLATIONS

With over 20 years of experience, Chad's expertise of marine seating installation and maintenance is unmatched. Chad delivers hands on support to shipbuilders and owners through the UES Marine Installation Program of UES Marine products.
